THE PREZ SEZ

Hello There Corvair Enthusiast,

It's good to say hi again.

This has been a great month, there is so much going on around the club. Jim Gailley's car is almost complete. There have been over a dozen club members helping to change the 4 speed transmission to a Powerglide transmission, replacing the oil pan gasket, the rear brakes, and various rubber bushings around the rear of the car and in the engine compartment. It is really starting to take shape as an Automatic powered Corvair. Delia, Pat, Jim, we sure enjoyed all the good eats.

I had a great trip to Nebraska with Ronda, Phillip, and Ann. We went to Shades Corvair, a great place to visit. We saw Corvairs in all stages of restoration. It was 20 degree outside and inside the building wasn't much warmer, but the temperature didn't stop us from having a great time. Don't forget to ask Ronda about her new addition. Additionally, we went to the Classic Car Collection in Kearney Nebraska, where they host 200 classic cars in a 50,000 sq. ft. building. We feasted our eyes on the only Corvair in the place. To top off our trip, Chris Shade told us to stop in and see Alton Jackson at Jackson's Car Corner if we wanted a treat. Alton took us through his basement collection and what a layout he had. We saw many old classics to include his late model Corvair convertible that had factory air conditioning. He showed us his very first car he bought when he learned to drive. It looked better than a show room model. He was so gracious and took time to show us around and talk to us about his cars. Some of you may be wondering how he got the cars in the basement. You'll have to make a trip to Nebraska to find out.

In other news, it looks like Chris and his green late model made a road trip to Kansas and came home with a new flywheel with the help of the Kansas friends. And then there is the engine building going on at Bob's house where Bob and Ron are rebuilding Ron's engine for his Spyder. I've heard it is coming along nicely. Pat received the rebuilt turbo, back from Mike Dawson. He has it ready for Delia's car "Bonnie".

If I missed anyone, please drop me a line. We don't want to miss a thing.

So with all of this said, our members are definitely on the go.

Wow, this is great! Keep all the good things happening.

So for now, find some curvy roads and keep it between the lines. Drive safe, be safe!

James

65 vert is home again. Time to start putting it back together, touchup and clean.

A little update on the 65 convert paint job....it sure is harder and slower putting back together than taking it apart!
